Menopausal
Medicine
via **BrowZine**

Our Clinical and Evidence Based Information Service (CEBIS) is working to aid the development of institutional responses that support UHCW staff experiencing menopause.

If your role at UHCW requires you to write policies or codes of practice that need to consider staff experiencing menopause, contact CEBIS for a search of the evidence to ensure you have the current and comprehensive information you require: CEBIS@uhcw.nhs.uk

Menopause Resources

Further Support from UHCW Library

Need to carry out a more detailed search for menopause topics?

We offer a range of specialist databases for more detailed literature searching. See what's available at uhcwlibrary.org/databases

We can also provide training in literature searching and critical appraisal and support you to set up journal clubs, get your work published, prepare business cases for service improvement, write patient information, develop guidelines and much more. Get in touch: library@uhcw.nhs.uk
